Quality you can trust

Our mission is to provide our clients with first-quality service and products, guaranteeing their safety and freshness all around the world.

That is our commitment.

About us

We are the main animal protein producer in Chile, with more than 60 years of experience in the country, and over 25 in the global market.

We are a vertically integrated company, involved from the beginning to the end of the production chain. We have our own fields, feed mills, breeding farms, growing houses and processing plants. We also have our own distribution and sale centers for pork, turkey and chicken meat, as well as for processed products.

We are proud of our more than 13,500 workers and 10,000 external collaborators, which make us a driving force for growth and development in Chile.

Our growth has been achieved through the organic development of our operations, which comply with the highest quality and production standards in every step of the way.

Our philosophy is "Think globally, act locally". This is why we have offices and executives in different cities all around the world: among them are Tokyo, Shanghai, Genoa, Atlanta, Los Angeles and Mexico City. Their job consists of detecting trends and anticipating to the specific needs of each market, adapting this way to the different lifestyles and traditions of each individual country.

Sustainable products for our consumers

Following different quality and environmental management standards is at the heart of our production process. We also maintain high biosecurity standards. As a result, safe, quality food is produced in a sustainable way.
